

Fully Automatic Neck Binder Collar Attachment Overlok

Excellent collar attaching quality with equal and perfect distribution in the collar zone, thanks to adjustable tensioning roller system and also the ability to attach from shoulder to shoulder at the same time thanks to the pneumatic apparatus system.

Production Capacity:

Collar Capability; average of 2,900 pieces / 9 hours for standard collar measurements.

Benefits:

- * High efficiency - Superior performans.
- * Increase in production quality.
- * Increase in production capacity.
- * Integrated system, high quality shirring distribution
- * Easy use, No need for skilled worker.
- * The production quality will increase while the wastage ratio will decrease.
- * Allows for clean attachment of collar.
- * Reduces 4 operations of work to 2 operations.
- * Faster and cleaner production.
- * 3 thread - 4 thread overlock function.

Technical Specifications

- * Very easy use.
- * Any type of size can be applied from XXXS to XXXL.
- * It works without problems with all types of fabrics without being selective of the fabrics.
- * The design is extremely ergonomic.
